

# New AOIS Package Solution

In the state of Florida there are several changes to the current charter school law that are being proposed. These changes will result in tighter oversight for Florida Charter School Authorizers. The provisions highlight the need for effective oversight. AOIS can help authorizers discover and correct problems at a charter school early, before they become untenable.

After reviewing the changes that may occur in Florida we introduced a New AOIS Florida Package to all Florida Charter School Authorizers. The AOIS Florida Package will allow Florida Authorizers staff and school staff to be up and running in just 3 days! Here is what would happen:

**Day 1** AOIS staff gather school and user information

**Day 2** AOIS trainers arrive onsite for oversight office training and entry of master calendar due dates

**Day 3** AOIS trainers arrive at specified location(s) for school user training

All setup and training is done by our staff. All you have to do is sit back, relax and learn. The first quarterly billing would not occur until July 1, 2009 for the 2009-2010 school year.

If you are a charter school authorizer or sponsor in the state of Arizona, Texas, or California, call Meghann Murphy at (616) 988-3215 to find out what kind of AOIS package solution we have available for you.

## “NUMBERS...”

### Why AOIS?

#### Compliance

AOIS tracks the compliance status of each school authorized, and reports this instantly in a graphical interface that is easy to use.

#### Electronic Filing

AOIS is also an electronic filing system, so every document associated with schools is immediately available and can be accessed from any location.

#### Workflow

AOIS also incorporates a workflow system that informs employees when it is time to perform a specific task, and flows documents from employee to employee electronically, ensuring the work is done consistently among all schools.

#### Performance

AOIS also includes a performance module that tracks and reports student and school achievement.

## Document Quality Control

In order to insure that all documents in AOIS are never lost, Corporate Computer has implemented various quality control activities. One activity includes doing a monthly query. This query verifies that all documents displayed in an organization's AOIS matches up with the information within the database and vice versa. Any discrepancies between the documents displayed in AOIS and the database are investigated and resolved.

Another quality control feature in place to maintain our high standard of never losing a document is a review of various user settings that allow certain AOIS users to delete or move a selected document. This security feature or access role is given to a few users at the discretion of the organization's AOIS Administrator and is therefore, tightly controlled.

Lastly, all documents and information in AOIS is backed up and saved daily, weekly, monthly, quarterly and yearly. The information is stored on tapes which are then archived offsite. If a document is ever accidentally deleted from AOIS, it can always be restored.

## Other Interesting Things Happening at CC

# Using AOIS to Reduce Expenses

In today's economic times of strained resources and reductions in revenue, organizations need to find solutions that allow them to exploit their current resources as well as help to reduce current expenditures. One of the many valuable benefits of using AOIS to monitor and oversee charter schools includes the reduction in expenses. By automating and streamlining oversight activities, organizations can see a reduction in resources spent on staff and materials.

Many of our current client's have spoken about seeing a reduction in oversight expenses with using AOIS. Some of the conversations indicate that instead of adding additional staff to help monitor and track schools, AOIS was implemented to automate the process. Others have stated that the cost of maintaining and retrieving records was becoming too high and that AOIS has addressed the problem and resulted in lower administration costs. With AOIS, there is no need for three ring binders and storage or having to fax or email documents. All your documents are saved in one centralized location and can be accessed in just a few mouse clicks. With AOIS, many of our clients have seen a reduction in staff travel which helps with reducing expenses.

In order to see the costs savings that your organization can incur with having AOIS compared to your current oversight and monitoring system, please feel free to contact Stephanie Misner at (616) 988-3200 or email [smisner@corpcomp.com](mailto:smisner@corpcomp.com).

## Monthly Client Testimonial

Erin Lanoue *Associate Director*

CHICAGO INTERNATIONAL CHARTER SCHOOL

### Why did you buy AOIS?

We are a multi-site charter school with 12 schools underneath us and we contract with 4 EMO's. We are adding one site per year. Compliance was taking more and more of our time, becoming very cumbersome.

### What do you like best about using the tool?

I like the time savings that I get with the tool. Since all of the requirements are in one place, the schools access the same thing we do so I don't have to manually send out reminders, print off forms and file them in my binders. Also, the tool gives me the peace of mind knowing that each school gets notified ahead of time — with the 7-day alert system — when something is due. AOIS keeps each of our schools accountable and there is no excuse if something is not completed on time — or accurately. Your schools can't say, "I didn't know about that." It takes away the excuses of not being in compliance.

### What would you tell someone else about the tool?

I would tell them that not only is AOIS easy to use, it completely streamlines the process of oversight. AOIS provides one spot where all related parties can go to, to track compliance and share information. It takes the guesswork out of compliance.
